Città sostenibili: una casa a misura di cane

Amelia Scarafone **Enrico Bixio**

1

Non esiste la casa a misura di cane, ma solamente compromessi per rendere le nostre abitazioni più fruibili per noi ed i nostri amici a quattro zampe.

Ho utilizzato fotografie prese dalla vita a casa mia, che essendo in campagna ci offre un notevole sbocco all'aperto, ma vedrete che anche la vita indoor va organizzata, e qualunque cosa noi decidiamo di fare, l'interpretazione canina sarà sempre una sorpresa.
